TITLE : MOBILE UNIT, EXTERNAL DEVICE  
AND CONNECTION DEVICE  
CONNECTING THE MOBILE UNIT TO  
THE EXTERNAL DEVICE

ABSTRACT : PROBLEM TO BE SOLVED: To solve the inconvenience caused when an external device connected to a mobile unit is provided with a similar application to receive a data communication service.

SOLUTION: In the case that the external device 200 is connected to the mobile unit 100 and the external device 200 is authenticated to be a legal device, the mobile unit 100 selects the external device 200 as a device that executes an application to receive a data communication service from an IP server 500 and does not terminate a protocol and execution of the application in this case.
